Written Testimony

We already pay to pickup our trash. The city has not been doing it for free over the last 75 years. It would be a double tax to pay an additional fee to get what we already pay for. The city says it costs \$50 per month to provide trash pickup so if they start at \$10 a month why wouldn't they eventually argue that we have to pay \$50 per month just to break even?

In addition, Bill 29 begins a charge of \$10 per pickup for bulky item pickup. We know that now, when there is no charge, bulky items are dumped all over neighborhoods. If the city begins charging \$10 and we are required to call to make an appointment, bulky items will be dumped all over the place as it will be too inconvenient to call and pay \$10 (in advance of pickup).
